taste and tradition  
*Wines*

Our wine is born to Cirò, in Calabria, in the territory to which the ancient ones gave the name of Enotria (the wine's earth) an earth kissed by the sun and by the Ionian sea, crib of Great Greece full of history, culture and tradition. There are tied up ancient legends to these places that narrate and they sing the goodness of the fruits of this earth, from here it tells him the jewel nectar it departed for being given in gift to the gods and in prize to the athletes that exhibited their value to the games of Olimpia. It is from this millennial history that is born our philosophy of the wine, his/her names inspired to that places and that times the search of the rediscovery of the traditions and the culture of the wine that has been being handed down in the earths of Calabria applied to a modern project that learns from the roots of the past to intend to the future for centuries. From the accurate selection of the historical vines as the Gaglioppo and the White Greek the is born "blend" of our wines, a productive run in the full respect of the traditions. This is the style "Only Good Italy" that today we introduce; To you we leave the assignment to taste and even to share with us, the experience, the love and the refinement that we have wanted to put in our job.
